18th Annual New England School of Best Practices in Addiction Treatment

August 23 - 26, 2010 • Waterville Valley Conference Center • Waterville Valley, NH

Advanced Clinical Coursework • Opioid Treatment Coursework

The New England School of Best Practices in Addiction Studies is an intensive clinical and administrative skills training opportunity for advanced clinicians and administrators. This four-day event gives established professionals the opportunity to do in-depth study of best practices and evidence-based practices in an area of special interest in a fine resort setting in the White Mountains of New Hampshire. Coursework is also available in best practices and evidence-based opioid treatment practices.

Target Audience: *Please note participants attending advanced clinical coursework must hold substance abuse treatment credentials or have worked in chemical dependency treatment for at least five years: EAP's, certified alcohol and drug abuse clinicians, clinical and medical staff of opioid addiction treatment programs, mental health clinicians, nurses working with chemical dependency, healthcare staff of opioid addiction treatment programs, social workers working with chemical dependency, opioid addiction treatment program clinicians, program administrators, and clinical supervisors.*
